Describe What You Saw: In March of 2021, I started receiving emails from an unknown account. I also started getting packages and letters that came to my house. The packages and letters made Jazzy and I believe that I would be killed if I ran for mayor. We also got extremely concerned with all of the packages we kept getting that one might end up being a bomb. We had to add extra security to the house because we had issues sleeping or even sleeping at the house not knowing if the person sending these letters or emails were going to kill us. This is the first time in my life that I feared for my life and Jazzy's life. It got to the point that Jazzy wasn't sure if I would come home after I left the house thinking this person could kill me at any point. We also feared that any city,

Describe What You Saw: Event that I would go to as city council meeting. When everyone knew I would be there it wasn't safe for Jazzy to be at the house and she would always leave the house and go to her parents. We also believed that if I voted for things or against that I might be killed. It got to the point that I would change my schedule up just in case someone was waiting for me at the city building or house.

When I was getting ready to run for Mayor I was at Andra's my friend with the realtors and Natalie Hall was in the room as I was leaving. I received a email saying I was there. That's what made us believe that it was Natalie sending us these letters and packages. We knew if I ran against her for

Describe What You Saw: Mayor I would be killed. Jersey was so ^{scared} and emotional it I ran against her I was going to die. We decided for the safety of my life I couldn't run against her. There have been times during the night I have woken up freaking out thinking that I am being killed or someone is in the house to kill us.

After it was known that I was no longer running for mayor and I was supporting ~~the~~ opponent, the husband Jason attacked me at my wife's home. He took down my signs and threw them at my hands. He then got in my face, I asked him to please get out of my face he continued screaming. I then was bent over trying to fix my umbrella that he

Describe What You Saw: took down he called me fucking pathetic I was extremely worried for my safety. The signs that he threw ended up scratching my arm. I talked with the police about it and didn't want to lose a big deal in the media I just let it go. But after this happened I had a feeling that the Jason and his wife hated me so much that they are willing to kill me. The latent package makes me believe that they want to kill me with an axe because of the address they used was a axe throwing place. I am scared for Jersey and my family's life. I believe that they may kill me at any moment.
